THIRD PRIZE NATIONAL AWARD for Outstanding Entrepreneurship Small Enterprises (Manufacturing) by Government of India, Ministry of Micro, Small and Medium Enterprises 2011.

Product Range

POPBAND Plaster of Paris Bandage B.P.

- Made up of imported Plaster of Paris Powder and Leno Gauze.
- Used to immobilize joint or limb fractures. Applied as a cylindrical cast.
- Meets all Parameters of B. P. (British Pharmacopoeia) Standard.
- Has excellent conformability, stability, and mouldability
- Low immersion time 3 to 5 Secs.
- Low initial setting time 90-140 seconds which allows faster application and better casting
- Creamy texture helps in formation of better cast.

GYPSOCREPE

Cotton Crepe Bandage B.P.

- **Comfortable, Conformable, Cotton Crepe bandage made up of cotton and rayon yarns with fast Edges.**
- **Used on sprains, Strains, Dislocation, Painful joints, Post – Operative conditions, sports Injuries. support Bandaging, general surgical and orthopedic uses.**
- **Provides comfort and protection to the skin.**
- **Gives high degree compression and support.**
- **Good stretching characteristics.**
- **Durable: retains elasticity even after several washes.**

CAREPORE

Hypoallergenic Skin barrier microporous surgical Tape

- **Non-woven backing material coated with Hot Melt Pressure Sensitive Adhesive which is porous and helps in skin Breathing.**
- **Used on sensitive parts of the body and also by infants and people with allergies. Adheres well to anywhere on the skin for covering simple and non-bulky dressings.**
- **Soft, comfortable tape which is conformable for use in many applications.**
- **Very porous to allow moisture to evaporate and skin to breathe.**
- **Leaves minimal adhesive residue upon removal for fast and easy cleanup.**
- **Hypoallergenic, that indicates no risk of allergic reaction.**

GYPSSOFT Orthopaedic Wool Bandage

- It is a smooth soft padding used as a skin barrier for orthopaedic casting bandages.
- provides comfort and protection to the skin.
- Uniform thickness prevents pressure points.
- Highly absorbent, retains its loft even when wet.
- Excellent conformability.
- Permeable to air, allow skin to breathe.
- No chances of skin maceration.

FIXCAN **Cannula Fixator**

- **Convenient to use.**
- **Used to secure IV Cannula to the skin.**
- **Allows skin to breathe.**
- **Stretches with body movements.**

POPCAST **Plaster of Paris Bandage B.P.**

- **Made up of Indian Plaster of Paris Powder and Leno Gauze.**
- **Low immersion time 3 to 5 Secs.**
- **Low initial setting time 90-140 seconds which allows faster application and better casting.**
- **Rapid setting properties, Strong and Durable.**
- **Meets all Parameters of B. P. (British Pharmacopoeia) Standard.**
- **Creamy texture helps in formation of better cast.**
- **Excellent mouldability.**

GYPSOPLAST **Elastic Adhesive Bandage B.P.**

- consists of a woven fabric, elastic in the warp, which has been spread evenly with an adhesive mass containing zinc oxide
- This is used for maintaining dressing in its position after operation, fracture of mandible ribs and chronic ulcers, sprains & muscles injuries.
- Ideal bandage for support strapping fractures, elbows, knees, shoulders specially requiring elasticity.
- A comfortable flesh colored Elastic Adhesive Bandage with fast Edges.
- Strong adhesive provides effective support.
- Excellent stretch and regain properties.
- Allows skin to breathe.

GYPSONET Paraffin Gauze Dressing B.P.

- Coarse Leno Gauze impregnated with Yellow soft paraffin. (Sterilized with Gamma Radiation)
- Used for Minor burns, donor and recipient graft sites, skin loss wounds, abrasions and leg ulcers.
- Soothes and protects the wound, and allows the passage of exudates from wound.
- It is a non-adherent and latex free.
- Fray resistant.
- No Skin Irritation and ready for immediate use.

CARECREPE Cotton Crepe Bandage B.P.

- **Comfortable, Conformable, Cotton Crepe bandage made up of 100% cotton yarns with fast Edges.**
- **Used on sprains, Strains, Dislocation, Painful joints, Post – Operative conditions, Sports Injuries**
- **Used as support Bandaging, General surgical and Orthopedic uses.**
- **Provides comfort and protection to the skin.**
- **Flesh color, non-fraying edges.**
- **Durable: retains elasticity even after several washes.**
- **Good stretching characteristics.**

GCAST Orthopedic Casting Tape

- The substrate fabricated by special Raschel 2 Bar weaving, It has excellent mouldability, flexibility and clean end finishing.
- Specially developed resin has very low tack exotherm.
- Packing and selling of this product with proper tension reduces one side pilling up of resin in long storage and guarantees soft release of rolls in use.
- Long storage and guarantees soft release of rolls in use.
- Color code : Blue and Pink

CARETAPE Adhesive Tape U.S.P.

- **Plain cloth coated evenly with an adhesive mass containing zinc oxide.**
- **It is used to secure dressings to the skin.**
- **Also used to immobilize small areas.**

GYPSOCHLOR

Chlorhexidine Gauze Dressing B.P.

- Coarse Leno Gauze impregnated with white soft paraffin and chlorhexidine acetate. (Sterilized with Gamma Radiation)
- Used on Burns, Scalds, Lacerations, Crush injuries, Diabetic Ulcers, Skin Grafting, Pressure cores and surgical wounds.
- Reduces risk of infection, Chlorhexidine Acetate works as antiseptic.
- Interlocking gauze yarn threads minimize fraying when the dressing is cut to shape.

SURGIWRAP **Combine Dressing**

- **Non-woven fabric overwrapped on absorbent cotton wool (Sterilized with Gamma Radiation)**
- **Used for wounds and bleeding. Used in operation theatres and OPD for cleaning of wounds.**
- **High quality cotton provides better absorption.**
- **Non - adherent overwrap does not hinder healing process.**

GYPMASK **Medical Face Mask**

- **Disposable 3-ply Mask**
- **UV-Sterilized.**
- **Having outer water resistant and Inner skin friendly layer**
- **Can be used for protection from dust and allergens**
- **Soft and breathable.**
- **Available with a nose-pin for securing.**

History

Galaxy Medicare Limited started its journey in the year 1992. It all began in July 1992 when Mr. Dillip Das (Founder) took over a closed unit and started manufacturing Plaster of Paris Bandage B. P.

During 1995, Smith and Nephew Limited, United Kingdom selected us exclusively as their PARTNER for manufacturing their world-famous brand of Plaster of Paris Bandage "GYPSONA" in our facilities for India, Sri Lanka, Bangladesh & Nepal. This partnership continued up to 1999 when they shifted to their own facility in Maharashtra.

Since 1999, we are associated with 3M India Limited, which is part of 3M USA, a Fortune 50 company. We are their sole manufacturers of "3M CAST" Plaster of Paris Bandage B. P., which continues till date. We also manufacture 3M Elastic Adhesive Bandage exclusively for 3M India Limited.

In the course of time we started developing our own marketing network in the Eastern part of India to market our own brands. Moreover, we started manufacturing different kinds of bandages and dressings to cater to the market.

Now, we have almost 10 OEM clients who testify to our quality products and come back to us for their requirements.

Our Mission

To manufacture medical devices meeting international standards and to make them available to the medical fraternity with uncompromised quality.

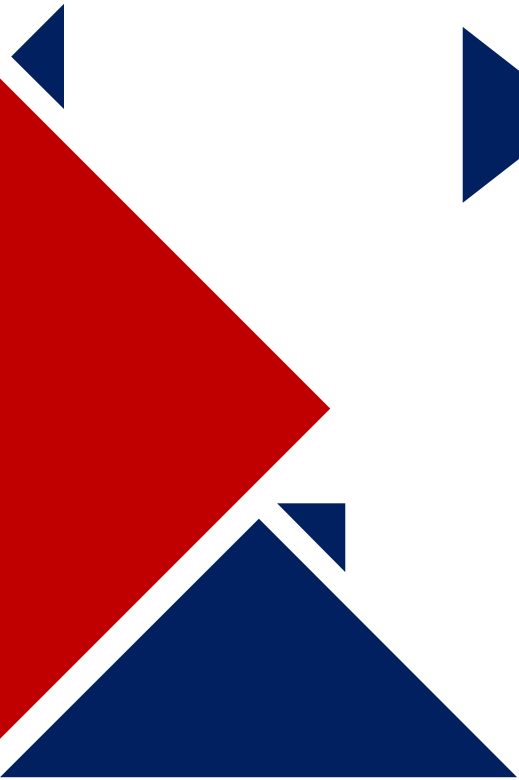

Our Vision

To be the most trusted partner in the field of surgical consumables.
